

Envelope

The envelope napkin fold is very classic yet extremely quick to fold. For best folding results, it may help to first iron the napkins thoroughly with starch to ensure a more rigid napkin.

Step1

Iron the napkin flat.

Step2

Fold the napkin in half so that the open end is facing away from you.

Step3

On the right hand side of the napkin, fold both corner edges towards the center to form two triangles

Step4

Fold the left side of the napkin over in half to meet the right

Step5

Take both triangle layers and fold both over to create the napkin envelop fold
