

Knot

Whoever thought that tying a napkin into a knot could be so elegant? The knotted napkin fold is easy to do but takes a bit of practice to get it right.

Step1

Iron the napkin flat.

Step2

Fold the napkin in half diagonally.

Step3

Starting from the long edge, fold the napkin edge up one inch

Step4

Continue folding the napkin over until it makes one long strip

Step5

Finish by folding the right edge over the left and loop to create a knot.
