

Rose

The rose napkin fold is one of our favorite folds. Despite coming across as intricate and fancy, the rose fold is not that difficult to do. This fold is perfect if you are looking to impress your guests or if you are looking for a fancy, ornate table setting

Step1

Iron the napkin flat.

Step2

Fold all the tips of the napkins into the center

Step3

Turn the napkin over

Step4

Fold the outer corners in so they meet at the center once again

Step5

Once all of the tips are folded you are left with a square about 1/4 the size of the unfolded napkin.

Step6

Place something sturdy in the center (A drinking glass works great!)

Step7

While maintaining downward pressure in the center of the napkin, reach underneath each corner and pull out the flaps to create petals.

Step8

Pull out the flaps on all four corners of the napkin

Step9

Remove the center weight and your rose is finished.
